

If you choose the Try SCUBA course of the Open Water Certification course you can be sure of the most educational and challenging course possible while ensuring safety and a unsurpassed aquatic adventure in a controlled environment.

The Try SCUBA course will give you the basic knowledge you need to make a safe SCUBA dive directly supervised by an instructor.

The Jr. Open Water Certification is for those that want more of the aquatic world providing you an academic overview of diving, skill training in shallow water and open water dives. After completion of the Jr. Open Water Certification you can participate in supervised open water dives in locations around the world. The Jr. Open Water Certification Program also gives you credit toward full, entry-level certification.

This program brought to you by the coalition of Independent Dive Instructors at Brunswick Scuba

SCUBA SCOUT PROGRAM

The SCUBA Scout Program introduces scouts to the wonders of the aquatic world under the supervision of certified diving professionals. SCUBA Certification is also available for those that meet the age requirement.

Scuba Diving is a totally awesome sport. We introduces qualified scouts and registered adult participants to the special skills, equipment, and safety precautions associated with scuba diving, encourages aquatics activities that promote fitness and recreation, and provides a foundation for those who later will participate in more advanced underwater activity. The Try Scuba experience contains two parts - Knowledge Development and Water Skills Development.

During the first part, participants learn basic dive safety information and overview skills to be used during their water experience. The Water Skills Development session introduces essential dive skills, such as mask clearing, regulator clearing, and alternate air source use. The Try Scuba program is conducted in clear, confined water by a certified instructor. Completion of all requirements sets the stage for additional training, but does not qualify the participant to dive independently, either in confined water or open water environments.

Scuba Diver Certification is a possibility with older children and adults. This certification will allow you to dive anywhere with a qualified Dive Buddy. You will be challenged with more Knowledge Development and Water Skills Development which promote a comprehensive safe diving experience. Curriculum includes Scuba safety, physical fitness, emergency preparedness, waterman ship, buddy system, underwater communication, equipment, buoyancy control, understanding pressure, and more!

With the Scuba Scout Program you can learn to scuba dive playing cool games underwater and earn certificates for completing different courses like, creature ID and even a wreck diver class, all great fun. So, if you are looking for a new hobby or adventure that is way cool then check out our Scuba Scout program and have the time of your life, meeting lots of new friends and earning loads of certificates.

Try Scuba

Time: evenings or weekends, flexible schedule

Covers: all equipment and instruction

Location: local Pool or Lake Rawlings

Jr. Scuba Diver

Time: classroom sessions are held evening and water sessions are weekend activities
